

MINUTES OF THE REGULAR MEETING OF THE BOARD OF DIRECTORS

TROUTLY ANALYTICS, INC.

A Delaware Corporation

Held: Saturday, June 20, 2026

Location: Principal Office, 2405 South Congress Avenue, Austin, TX 78704,
with directors participating in person and by telephone conference as noted

Prepared by: Krystale Jumawan, Corporate Secretary

CALL TO ORDER, ATTENDANCE, AND ESTABLISHMENT OF QUORUM

A regular meeting of the Board of Directors of Troutly Analytics, Inc. (the “Company”) was held on Saturday, June 20, 2026, at the Company’s principal office located at 2405 South Congress Avenue, Austin, TX 78704. The meeting was called to order by Chair Michael Labeson at 9:03 a.m. Central Time.

Attendance — Directors Present

The following members of the Board of Directors were present:

Director	Role	Mode of Attendance
Michael Labeson	Chair of the Board; Chief Executive Officer and Co-founder	In person
Sora Jackson	Director; Chief Technology Officer and Co-founder	In person
Beatrix Yang	Independent Director	By telephone
Alessandro Marquez	Independent Director	In person
Priti Chandrasekar	Independent Director	By telephone

Attendance — Directors Absent

None. All five members of the Board were present for the entirety of the meeting except as specifically noted below with respect to individual agenda items.

Attendance — Management and Advisors Present

The following officers, employees, and invited attendees were present at the invitation of the Chair:

- Krystale Jumawan, Finance Manager, serving as Corporate Secretary for the meeting for the purpose of recording these minutes;
- Grayson Oshimoto, Office Manager, present for the administrative portion of the meeting and for Item 1 (Approval of Prior Minutes), and excused thereafter at 9:14 a.m.;
- Jessica Ko, Engineering Manager, present as a subject-matter presenter for Item 7 (Second-Half 2026 Hiring Plan);
- Edith Bustamante, Customer Success Lead, present as a subject-matter presenter for Item 7 and Item 8;
- Luka Odum, Talent Acquisition Specialist, present as a subject-matter presenter for Item 7.

The Corporate Secretary noted for the record that the position of Head of People remained vacant as of the date of the meeting, that a signed offer had been extended to a candidate for that role with an anticipated start date on or about August 3, 2026, and that the incoming Head of People was therefore not in attendance and had no participation in any matter considered by the Board at this meeting.

Quorum

The Corporate Secretary confirmed, by reference to the certificate of incorporation and the bylaws of the Company as then in effect, that a quorum of the Board was present. All five sitting directors being present, the meeting was duly constituted for the transaction of business. The Chair announced that a quorum having been established, the meeting

would proceed to business.

Notice and Waiver

The Corporate Secretary confirmed that notice of the meeting had been given to each director in accordance with the bylaws, and that no director had objected to the notice or to the manner of the meeting's convening. Any and all defects in notice, if any, were deemed waived by the presence and participation of all five directors.

APPROVAL OF PRIOR MINUTES AND ORDER OF BUSINESS

Item 1 — Approval of Minutes of the Prior Regular Meeting

The Corporate Secretary presented the draft minutes of the prior regular meeting of the Board of Directors held on May 16, 2026, which had been circulated to each director in advance of the June 20, 2026 meeting for review.

Chair Labeson invited discussion. Director Chandrasekar noted a minor typographical correction to the attendance line concerning the mode of her attendance at the May 16, 2026 meeting (telephone, rather than in person as reflected in the draft). The Corporate Secretary was directed to make that correction in the final record.

Upon motion duly made by Director Marquez, seconded by Director Yang, and after opportunity for further discussion, it was:

RESOLVED, that the minutes of the regular meeting of the Board of Directors held on May 16, 2026, as corrected on the record with respect to the mode of attendance of Director Chandrasekar, are hereby approved and adopted as the official minutes of that meeting.

The motion carried by unanimous vote of the directors present. There were no abstentions.

Order of Business

Chair Labeson stated that the Board would proceed through the agenda circulated in advance, comprising nine numbered items. The Chair reserved the right, subject to the concurrence of the Board, to take items out of order to accommodate the availability of invited presenters. No director objected. The agenda, as taken up, was as follows:

1. Approval of Minutes of the Prior Regular Meeting (05/16/2026)
2. CEO Report — Business Update and Second-Quarter Performance Review
3. CTO Report — Product and Engineering Update
4. Finance Report - Cash Position, Runway, and Quarter-to-Date Financial Statements
5. Sales and Revenue Report — ARR Trajectory and Pipeline Coverage
6. Customer Success Report — Retention Metrics and Renewal Outlook
7. **Second-Half 2026 Hiring Plan — Consideration and Approval**
8. **HRIS Consolidation — Status Report**
9. Other Business, Executive Session (as needed), and Adjournment

Grayson Oshimoto was excused from the meeting at 9:14 a.m. following the disposition of Item 1.

Item 2 — CEO Report

Chair Labeson delivered the Chief Executive Officer's business update. The report covered the Company's operating results for the second quarter of calendar year 2026 to date, progress against the annual operating plan adopted by the Board in January 2026, and material developments affecting the Company's strategic priorities. The Chair reported that annualized recurring revenue quarter to date was approximately \$8.1 million, that cash on hand as of the reporting date was approximately \$9.8 million, and that the operating team was pacing to plan with respect to the majority of tracked operating metrics.

The Chair further reported on progress against the two operating priorities identified at the May 16, 2026 meeting: (i) completion of the HRIS platform transition on or before July 1, 2026, which is treated separately below at Item 8; and (ii) execution of the second-half hiring plan on a disciplined, board-authorized basis, which is treated separately below at Item 7.

Directors asked clarifying questions with respect to customer concentration and gross retention. The Chair responded to the questions posed. No formal action was taken on the CEO report.

OPERATING REPORTS

Item 3 — CTO Report

Director Jackson, in her capacity as Chief Technology Officer, presented an update on product development and engineering execution. The CTO reported that the engineering organization stood at nineteen full-time employees

supported by contract capacity, that engineering hiring in the first half of 2026 had focused on backfilling attrition and adding limited capacity in the data engineering and backend engineering functions, and that further capacity additions in the second half would be required in order to sustain the delivery cadence contemplated by the product roadmap presented at the March 2026 board meeting.

The CTO specifically noted that two engineering roles — one Senior Software Engineer and one Software Engineer II — would form the engineering component of the hiring plan to be considered under Item 7. The CTO expressed the view that these two roles, if approved, would be sufficient to support engineering commitments through the end of calendar year 2026, and that any incremental engineering capacity beyond those two roles was neither requested nor contemplated by the plan being presented.

Directors asked clarifying questions with respect to contractor conversion, on-call rotation coverage, and the ratio of individual contributors to engineering management. The CTO responded to the questions posed. No formal action was taken on the CTO report.

Item 4 — Finance Report

Ms. Jumawan, in her capacity as Finance Manager, presented the quarter-to-date financial statements and updated cash and runway analysis. Ms. Jumawan reported that cash on hand as of the reporting date was approximately \$9.8 million; that the trailing three-month average burn was consistent with the range presented at the May 16, 2026 meeting; and that, absent material change in the operating plan, the Company's runway was sufficient to fund operations beyond the reporting horizon then under consideration by the Board.

Ms. Jumawan further presented a build-up of the second-half operating plan indicating that headcount-related expense would be the principal driver of any incremental increase in monthly burn during the second half of calendar year 2026, that the hiring plan being brought forward under Item 7 was scoped and priced within the perimeter of the approved annual operating plan, and that the annualized incremental commitment associated with the plan being presented was \$612,000.00 (exclusive of the conditional Customer Success backfill discussed further below).

Directors asked clarifying questions with respect to accrued liabilities, the fully-loaded cost methodology used to price roles, and the treatment of contractor spend in the burn calculation. Ms. Jumawan responded to the questions posed. No formal action was taken on the Finance report.

Item 5 — Sales and Revenue Report

Chair Labeson, in the absence of a Chief Revenue Officer, delivered the sales and revenue report on behalf of the Sales function. The Chair reported that annualized recurring revenue quarter to date stood at approximately \$8.1 million; that pipeline coverage for the third quarter was in line with historical conversion patterns; and that a single Account Executive role would form the sales component of the hiring plan to be considered under Item 7. Directors asked clarifying questions with respect to pipeline coverage and sales cycle length. The Chair responded to the questions posed. No formal action was taken on the sales report.

Item 6 — Customer Success Report

Ms. Bustamante, in her capacity as Customer Success Lead, presented the Customer Success report. Ms. Bustamante reported that the Customer Success organization stood at eleven full-time employees; that gross retention for the trailing twelve months remained within the target band established at the beginning of the year; that a resignation had been tendered on May 29, 2026 by a Customer Success Manager with a stated last day of June 15, 2026, and that the associated departure was reflected in the reported headcount; and that one Customer Success Manager role would form the Customer Success component of the hiring plan to be considered under Item 7.

Directors asked clarifying questions. Ms. Bustamante responded to the questions posed. No formal action was taken on the Customer Success report.

ITEM 7: SECOND-HALF 2026 HIRING PLAN

Item 7 — Second-Half 2026 Hiring Plan — Consideration and Approval

Chair Labeson introduced Item 7 as a matter requiring formal Board action. The Chair explained that the Company's operating plan for calendar year 2026, as adopted at the January 2026 meeting of the Board, contemplated a discrete second-half hiring authorization to be brought forward for Board approval no later than the end of the second quarter, and that the plan being presented for approval had been developed by the Chief Executive Officer, the Chief Technology Officer, the Finance Manager, and the Talent Acquisition Specialist over the six weeks preceding the meeting.

The Chair caused to be distributed to each director a written plan document titled *Second-Half 2026 Hiring Plan — Board Approved*, dated June 20, 2026, together with an accompanying summary of role definitions, level assignments, and

midpoint compensation figures drawn from the DRAFT 2026 compensation band table previously circulated to the Board. Ms. Ko, Ms. Bustamante, and Mr. Odum were introduced as subject-matter presenters and each addressed questions from the Board directed to their respective functions.

The Chair called the Board's attention to the composition of the plan: five roles, priced at their respective 2026 draft band midpoints and totaling \$612,000.00 in annualized budget. The five roles presented for approval, and the level and department for each, were as follows:

1. **Senior Software Engineer** — Level IC4 — Engineering — Hiring Manager: Jessica Ko
2. **Software Engineer II** — Level IC3 — Engineering — Hiring Manager: Jessica Ko
3. **Account Executive** — Level AE — Sales — Hiring Manager: Michael Labeson
4. **Customer Success Manager** — Level CSM I — Customer Success — Hiring Manager: Edith Bustamante
5. **Product Designer** — Level IC3 — Product — Hiring Manager: Sora Jackson

The Chair further called the Board's attention to a conditional authorization proposed for inclusion in the plan: one additional Customer Success backfill, priced at the CSM I midpoint, authorized to fill only in the event of a Customer Success departure occurring on or before September 30, 2026. The Chair explained that this conditional authorization was intentionally excluded from the \$612,000.00 annualized budget on the theory that any such backfill would replace a departing headcount and would therefore be expected to be substantially net-neutral to the plan; and that the purpose of enumerating the conditional authorization as a distinct line in the plan was to permit a requisition to be opened without a further Board vote in the event that the triggering condition were met, while making clear that no requisition could be opened against that authorization absent the triggering condition.

Following presentation, directors engaged in discussion. Director Marquez asked whether the Chair anticipated bringing forward any further hiring authorizations during the second half of calendar year 2026 beyond those enumerated above. The Chair responded that no further second-half authorizations were contemplated at this time and that any incremental role beyond those enumerated would be brought back to the Board for separate authorization. Director Yang asked whether the level assignments and midpoint prices had been reconciled to the compensation bands memo scheduled for issuance in July 2026. The Chief Technology Officer responded that the DRAFT 2026 band table on which the plan was priced would be issued substantially unchanged as the July 15, 2026 compensation bands memo, and that the midpoints in the plan would be identical to the midpoints in the issued memo for each of the five roles listed and for the CSM I backfill.

Upon motion duly made by Director Marquez, seconded by Director Chandrasekar, and after full and fair opportunity for discussion, it was:

RESOLVED, that the Board resolves to approve the second-half 2026 hiring plan consisting of **five roles: Senior Software Engineer, Software Engineer II, Account Executive, Customer Success Manager, and Product Designer**, at a total annualized budget of **\$612,000.00**.

FURTHER RESOLVED, that the Board further authorizes one additional **Customer Success backfill** only upon a Customer Success departure occurring before **September 30, 2026**, priced at the **CSM I** midpoint.

FURTHER RESOLVED, that the Chief Executive Officer and the Talent Acquisition Specialist are authorized and directed to open requisitions in the Company's applicant-tracking system corresponding to each of the five authorized roles, and, if and only if the triggering condition for the conditional Customer Success backfill is met, to open a sixth requisition against that authorization.

FURTHER RESOLVED, that no requisition may be opened in the Company's applicant-tracking system during the second half of calendar year 2026 that is not traceable line-for-line to the authorizations set forth in this resolution, and that any requisition not so traceable — whether opened from a working spreadsheet, a draft plan, or any other source — shall be treated as unauthorized and shall be closed or held pending further Board action.

FURTHER RESOLVED, that the Head of People, upon her arrival on or about August 3, 2026, and the Chief Executive Officer shall report progress against this plan at each regular meeting of the Board of Directors during the second half of calendar year 2026, including without limitation: (i) requisitions opened; (ii) offers extended and accepted; (iii) start dates confirmed; and (iv) actual annualized commitment measured against the \$612,000.00 authorized budget.

The motion carried by unanimous vote of the directors present. There were no abstentions. Directors Ko, Bustamante, and Odum were thanked for their presentations and were excused from the meeting at 10:47 a.m.

ITEM 8: HRIS CONSOLIDATION STATUS REPORT

Item 8 — HRIS Consolidation — Status Report

Chair Labeson introduced Item 8 as a matter for status report and Board acknowledgment. The Chair reminded the Board that at its meeting on December 10, 2025 the Board had approved the consolidation of the Company's human resources and payroll systems onto a new HRIS platform, that a contract with the selected vendor had been executed on April 15, 2026 with a hard cutover date of July 1, 2026, and that the transition had been proceeding on the timeline previously reported to the Board.

Ms. Jumawan, in her capacity as Finance Manager and in the absence of a Head of People, delivered the **HRIS Consolidation** status report on behalf of the operating team responsible for the transition. Ms. Jumawan reported that:

1. **Contract and vendor readiness.** The vendor contract signed on April 15, 2026 remained in effect and the vendor's implementation team was engaged and on schedule. No material contractual issues had arisen since the last report to the Board.
2. **Cutover date.** The July 1, 2026 cutover date remained firm. The operating team had made an early decision, previously communicated to the Board, that the cutover would proceed as a hard cutover with no parallel payroll run in the legacy system. Ms. Jumawan reiterated the operating team's view that the risk of a parallel payroll run — in terms of reconciliation effort, duplicative processing cost, and the potential for divergent records of truth — exceeded the risk of a hard cutover, provided that pre-cutover data preparation was completed carefully.
3. **Data migration.** The migration snapshot from the legacy vendor system had been taken on June 1, 2026 and was in the process of being loaded, mapped, and validated in the target platform. Field mapping was expected to be complete on or about June 24, 2026, with hire-date defaulting to July 1, 2026 for records in which a valid hire date could not be recovered from the source system. Ms. Jumawan noted the operating team's expectation that all fifty-six records in scope for the load would be present and mapped in the target platform prior to the July 1, 2026 cutover.
4. **Payroll continuity.** The Company would transition from semi-monthly to biweekly payroll effective with the July 1, 2026 cutover. The final semi-monthly payroll under the legacy schedule would be processed on June 30, 2026, and the first biweekly payroll under the new schedule would be processed on July 10, 2026. A payroll procedures memo was scheduled to issue on or about June 25, 2026 to communicate the change to affected employees.
5. **Policy alignment.** The transition would coincide with the issuance of an updated PTO memo (scheduled to issue same day, June 20, 2026, and effective July 1, 2026) providing for biweekly PTO accrual under revised tier definitions, a carryover cap of 40.0 hours as of June 30, 2026 with excess forfeited, and updated measurement conventions. The updated Employee Handbook (Version 3), effective July 1, 2026, would reflect these changes and would supersede the corresponding sections of the prior handbook.
6. **Risks and mitigations.** Ms. Jumawan identified as the principal residual risks (i) the possibility that individual records in the migration snapshot might contain stale or incorrect data that would carry into the target platform absent post-cutover reconciliation, and (ii) the compressed timeline for completion of field mapping and validation between June 24, 2026 and July 1, 2026. Ms. Jumawan reported that a post-cutover reconciliation would be scheduled for completion no later than the end of the third quarter of calendar year 2026, and that the incoming Head of People (expected to start August 3, 2026) would take operational ownership of the reconciliation upon her arrival.

Directors engaged in discussion. Director Chandrasekar asked whether the operating team had adequate bench strength to execute the cutover in the interval between June 30, 2026 and the arrival of the incoming Head of People. The Chair responded that the Talent Acquisition Specialist and the Finance Manager would jointly own operational execution during that interval, that the Office Manager would provide administrative support, and that any material issue arising during the interval would be escalated to the Chair and to the Chief Technology Officer without delay.

Director Yang asked whether any Board action was required in connection with the HRIS Consolidation at this meeting. The Chair responded that no new Board authorization was required, that the underlying authorization approved on December 10, 2025 and the vendor contract executed on April 15, 2026 remained in effect, and that the appropriate Board action at this meeting was to receive the status report and to acknowledge the operating team's continued execution against the previously approved plan.

Upon motion duly made by Director Yang, seconded by Director Marquez, and after full and fair opportunity for discussion, it was:

RESOLVED, that the **HRIS Consolidation** status report presented by the Finance Manager on June 20, 2026 is hereby received and approved; that the operating team is authorized and directed to proceed with the July 1, 2026 hard cutover as described in the status report; and that the operating team shall report progress against post-cutover reconciliation at each regular meeting of the Board of Directors during the second half of calendar year 2026.

The motion carried by unanimous vote of the directors present. There were no abstentions.

OTHER BUSINESS, EXECUTIVE SESSION, AND ADJOURNMENT

Item 9 — Other Business, Executive Session, and Adjournment

Chair Labeson invited any other business to be brought before the Board.

A. Ratification of Prior Actions.

Upon motion duly made by Director Marquez, seconded by Director Yang, and after opportunity for discussion, it was:

RESOLVED, that any and all actions taken by the officers of the Company since the last regular meeting of the Board of Directors on May 16, 2026 in furtherance of the Company's ordinary course of business and consistent with the authorities previously granted by this Board, are hereby ratified, confirmed, and approved in all respects.

The motion carried by unanimous vote of the directors present.

B. Scheduling of Next Meeting.

The Corporate Secretary confirmed the next regular meeting of the Board was scheduled for Thursday, July 16, 2026, at the Company's principal office, with the customary agenda materials to be circulated no later than seven calendar days prior to the meeting. No director expressed a scheduling conflict.

C. Executive Session.

Chair Labeson called for an executive session of the Board, and all management and invited attendees, including the Corporate Secretary, were excused from the meeting at 11:38 a.m. The Chair confirmed on the record prior to the exit of the Corporate Secretary that no formal action would be taken during executive session that would require entry into these minutes, and that the purpose of the executive session was solely to permit the directors to confer among themselves on matters of governance and strategy.

The Corporate Secretary re-entered the meeting at 11:56 a.m. at the request of the Chair, and confirmed with the Chair that no formal action had been taken in executive session that would require entry into these minutes.

D. Adjournment.

There being no further business to come before the Board, upon motion duly made by Director Chandrasekar, seconded by Director Yang, and unanimously carried, the meeting was adjourned at 12:02 p.m. Central Time.

Certification of the Corporate Secretary

The undersigned, having served as Corporate Secretary for the regular meeting of the Board of Directors of Troutly Analytics, Inc. held on June 20, 2026, hereby certifies that the foregoing minutes are a true, correct, and complete record of the proceedings of the meeting; that a quorum of the Board was present and participated in the meeting as reflected in the attendance section above; that each resolution set forth herein was duly moved, seconded, and carried by the vote indicated; and that these minutes have been prepared and are submitted for approval by the Board at its next regular meeting.

Executed at Austin, Texas on this 22nd day of June, 2026.

/s/ Krystale Jumawan

Krystale Jumawan

Finance Manager, serving as
Corporate Secretary for the 06/20/2026 meeting
Troutly Analytics, Inc.

Attestation of the Chair of the Board

The undersigned, having presided as Chair of the regular meeting of the Board of Directors of Troutly Analytics, Inc. held on June 20, 2026, hereby attests that the foregoing minutes have been reviewed and that they accurately reflect the proceedings of the meeting and the actions taken by the Board.

Executed at Austin, Texas on this 22nd day of June, 2026.
