

TROUTLY ANALYTICS, INC.
COMPENSATION BANDS MEMORANDUM

Effective Date:	07/15/2026
Supersedes:	2025 Compensation Bands (issued 02/03/2025)
Authors:	Sora Jackson, Chief Technology Officer & Co-founder Krystale Jumawan, Finance Manager
Approved by:	Michael Labeson, Chief Executive Officer & Co-founder
Distribution:	People Operations; Finance; Engineering Management; Sales Management; Customer Success Management; Marketing Management; Product Management
Document control:	COMP-BANDS-2026-07

1. Purpose

This memorandum establishes the compensation bands governing the September 2026 compensation cycle, replacing the 2025 bands previously in effect. All base salary decisions taken on or after 07/15/2026 — including new-hire offers, promotion recommendations, off-cycle adjustments, and merit increases contemplated for the September compensation cycle — shall be evaluated against the ranges set out in Section 3.

The bands stated here are the sole authoritative reference for base salary placement and compa-ratio measurement at Troutly Analytics, Inc. Any earlier band table circulated on the internal wiki, in prior planning spreadsheets, or in the 2025 bands memorandum is withdrawn and shall not be used to justify a placement or an adjustment after the effective date above.

2. Scope and application

2.1 These bands apply to all regular full-time and regular part-time employees classified as U.S. Texas workforce members of Troutly Analytics, Inc. Contractors engaged under independent-contractor agreements are outside the scope of this memorandum and are governed by the terms of their respective statements of work.

2.2 Base salary is expressed in United States Dollars on an annualized full-time-equivalent basis (2,080 hours). Part-time employees are placed within the band at the annualized rate and paid on the prorated hours actually scheduled.

2.3 The bands do not include variable compensation, sign-on bonuses, equity, benefits, or employer benefit contributions. Sales incentive plans and any role-specific commission structures are documented in separate plan letters and are additive to the base ranges below.

2.4 Assignment of an employee or a candidate to a level and role in Section 3 is made by the hiring manager in consultation with the Head of People, using the leveling guide maintained on the internal wiki. In case of a synonym mismatch (for example, “Senior CSM” versus “CSM II”, or “Staff Engineer” versus “IC5”), the canonical name in Section 3 governs.

2.5 Any base salary change — new hire, promotion, level change, off-cycle adjustment, or merit action — requires written approval signed by the employee's manager and either the Chief Executive Officer or the Chief Technology Officer, as set out in the Employee Handbook, Section 5 (Compensation).

3. Band schedule (effective 07/15/2026)

All amounts in USD, annualized, full-time-equivalent basis.

Level	Role	Minimum	Midpoint	Maximum
Support IC1	Support Specialist	\$50,575	\$59,500	\$68,425
IC1	Marketing Coordinator	\$52,700	\$62,000	\$71,300
Analytics IC2	Data Analyst	\$68,000	\$80,000	\$92,000
CSM I	Customer Success Manager I	\$81,600	\$96,000	\$110,400
AE	Account Executive	\$83,300	\$98,000	\$112,700
IC3	Marketing Manager	\$74,800	\$88,000	\$101,200
IC2	Software Engineer I	\$93,500	\$110,000	\$126,500
Analytics IC3	Data Analyst II	\$77,350	\$91,000	\$104,650
CSM II	Customer Success Manager II	\$97,750	\$115,000	\$132,250
IC3	Software Engineer II	\$108,800	\$128,000	\$147,200
Design IC3	Product Designer	\$100,300	\$118,000	\$135,700
M2	Customer Success Lead	\$108,800	\$128,000	\$147,200
IC4	Senior Software Engineer	\$129,200	\$152,000	\$174,800
M3	Head of People	\$153,000	\$180,000	\$207,000
E2	Chief Technology Officer	<i>banded — set by Board Compensation Committee</i>		
E3	Chief Executive Officer	<i>banded — set by Board Compensation Committee</i>		

Notes to the table:

- (a) Each band is constructed at $\pm 15\%$ around the stated midpoint. The Product Designer band and the Head of People band each carry the same $\pm 15\%$ construction convention.
- (b) The IC2 Software Engineer I band uses a midpoint of \$110,000. This level is not eligible for merit progression above the stated maximum without a level change to IC3 (Software Engineer II).
- (c) The Customer Success Manager I (CSM I) band replaces all prior "CSM" references from the 2025 schedule. The Customer Success Manager II band replaces the prior "Senior CSM" reference; that level name is no longer recognized in the leveling guide.
- (d) The Data Analyst II midpoint of \$91,000 supersedes the 2025 value; the prior figure is withdrawn.
- (e) Executive levels E2 and E3 are set by the Board Compensation Committee at its regular cadence and are not administered under this memorandum.

3. Band schedule (continued)

For structured reference — the midpoint values above expressed as bare annualized amounts:

- Support Specialist: 59500
- Marketing Coordinator: 62000
- Data Analyst: 80000
- Customer Success Manager I: 96000
- Account Executive: 98000
- Marketing Manager: 88000
- Software Engineer I: 110000
- Data Analyst II: 91000
- Customer Success Manager II: 115000
- Software Engineer II: 128000
- Product Designer: 118000
- Customer Success Lead: 128000
- Senior Software Engineer: 152000
- Head of People: 180000

4. Compa-ratio and placement conventions

4.1 Compa-ratio. Compa-ratio is computed against the midpoint of the employee's current level. These bands govern the September compensation cycle.

4.2 Placement convention. A new hire is normally placed at or below the midpoint, with placement above the midpoint reserved for candidates whose demonstrated experience materially exceeds the leveling-guide expectation for the role. Placement above the maximum requires a level change; it may not be effected by an adjustment within the current level.

4.3 Below-band placements. Where an existing employee's current base salary is below the minimum of the band for the level they occupy, the manager and the Head of People shall prepare a written recommendation for the September cycle proposing a corrective action. Below-band placements shall not persist beyond the September 2026 cycle absent a documented waiver signed by the Chief Executive Officer or the Chief Technology Officer.

4.4 Above-band placements. Where an employee's current base salary is above the maximum of the band for the level they occupy, the salary is held at its current level and is not eligible for further merit progression until either (i) the band is revised upward or (ii) the employee is promoted to a level whose maximum accommodates the current salary. Above-band salaries are not reduced by operation of this memorandum.

4.5 Level mapping for legacy titles. For any employee whose recorded title in the HRIS uses a synonym listed in the leveling guide (for example, “Senior CSM” mapped to CSM II, “Staff Engineer” mapped to IC5, “Lead X” mapped to Senior X), the mapped canonical level governs for the purpose of compa-ratio measurement.

4.6 Support anniversary step. Nothing in this memorandum alters the \$3,000.00 annual step increase applied to Support Specialists on each service anniversary, as set out in the Employee Handbook, Section 5.

4.7 Off-cycle adjustments. Off-cycle base salary adjustments remain subject to the approval requirements in the Employee Handbook, Section 5, and must be evidenced by a written approval signed by the manager and either the Chief Executive Officer or the Chief Technology Officer prior to entry in the HRIS.

5. Governance and review

5.1 The bands set out in Section 3 shall be reviewed at least annually by the Chief Technology Officer and the Finance Manager, with input from the Head of People, and re-approved by the Chief Executive Officer.

5.2 Amendments to a single level or role between review cycles may be made by written addendum, signed by the same three officers as the present memorandum, and shall be appended to this document and re-issued as a controlled revision.

5.3 The internal wiki page titled “Compensation Bands” is informational only and shall be updated to reflect this memorandum within ten (10) business days of the effective date. Where the wiki disagrees with this memorandum, this memorandum governs.

5.4 This memorandum shall be filed in the HR / Comp folder of the shared drive and referenced in every offer letter, promotion approval, and off-cycle salary change memorialized on or after 07/15/2026.

Signatures

The undersigned adopt this Compensation Bands Memorandum as the compensation-band schedule of Troutly Analytics, Inc., effective 07/15/2026.
